Introduction

This EDIFACT subset “Remittance Advice” has been prepared by ITEK on behalf of the Arbeitsgemeinschaft Neue Medien der deutschen Sanitärindustrie e.V. and the Deutscher Großhandelsverband Haustechnik e.V

Facsimile no.: +49 52 51 16 14 –99
E-mail: editec@itekmbh.de

The EDIFACT subset is based on the EDIFACT syntax version 3 and the following public documents:

- EDIFACT – Standardized message type “REMADV”
- UN/EDIFACT Directory 96B, UN/ECE/TRADE/WP.4
- EDIFACT - Service Segments Application Guidelines, Draft DIN 16560 - Part 1, February 1994
- UN/EDIFACT code list D.97A

Paderborn, June 2015

With the EDIFACT subset REMADV, remittance data are transferred from the regulator/federation/wholesale trade to the manufacturer in a swift, safe and cost-effective manner. This subset description and these guidelines of implementation normalize and standardize the process of electronic remittance data transfer from the regulator/federation/wholesale trade to the industry.

By means of the harmonized use of the remittance data on the part of the wholesale trade, and by the harmonized processing of these data on the part of the industry, the process reliability required for both sender and recipient is achieved.

The individual notes on implementation are given at the end of each segment and are marked as such. By observing these guidelines of implementation, you will achieve the harmonized processing of your remittance data by the industry, and the necessary order process reliability. For this reason, the consistent use of remittance data as defined in the guidelines of implementation is mandatory for the harmonized processing of your remittances at the suppliers’.

Description: This segment contains information regarding the documents that the Remittance Advice refers to. The Line item section of the Remittance Advice is created by repeating the DOC segment.

Implementation note:

- Code 83 – credit note related to financial adjustments**
This document serves as a credit advice for an unauthorised debit advice/invoice reduction by the wholesale trade.
- Code 325 – pro forma invoice (payment on account)**
With this document, payments on account are brought into account. The pro forma invoice is only used in centralized settlements.
- Code 380 – commercial invoice**
The invoice serves as a request to pay for delivered goods or services rendered according to the agreed terms.
- Code 381 – credit note**
The credit note provides information referring to credit notes for goods and services for the beneficiary.
- Code 383 – debit note / goods and services**
This document indicates a debit to the supplier, e.g. for defective goods.
- Code 31e – service credit note**
This document transfers credit information referring to financial corrections.
- Code 32e – service invoice**
This document transfers debit information referring to financial corrections.
- Code 33i – bonus**
This document transfers separate bonuses.

These are the numbers transferred by the supplier for invoices and credit notes. It is important for automatic processing that the number transferred by the supplier is transferred 1:1 without any alterations.

Description: In the RFF segment, the reference number for an additional partner identification can be transferred. This number serves to reference the buyer at document level and is required in the centralized settlement business.

Implementation note: Insofar as indicating the buyer in the centralized settlement business requires a new transfer file, indicating the buyer should be avoided.

In such cases, the payee or supplier can identify the buyer by means of the invoice number in their IT systems.
