Building digital competence

Good planning, good bathroom

We make your bathroom
design data ready for us.

/ARGE

Building digital competence

We

- verify your data and deliver them automatically to about 20,000 craftsmen, wholesaler, planners and architects.
- promote the consistent development in line with users' needs
- push modern data models for secure data creation
- help to choose data service providers
- offer more than 30 years of experience

Our partners

- offer powerful software for state-of-the-art planning
- accurately implement the ARGE's modern data model in practice
- provide updates regularly
- are experts in 3D visualization

Your benefits

- reliable data verification by ARGE
- more efficiency through automatic data distribution
- more market penetration and brand awareness
- active involvement and participation (optional)
- qualified ARGE support – both for you and the users of your data
